### CAREER SUMMARY:

---

Military Veteran with five years of active-duty experience seeking a career in Information Technology. Proven manager entrusted to meet deadlines and solve problems in a demanding, project-oriented environment. Excellent team-first attitude with a passion for collaboration.

### SKILLS:

---

React · JavaScript (ES6+) · HTML5 · CSS3 · Node.js · Git · TDD (Mocha, Chai)

### RELEVANT PROJECTS:

---

#### Overlook Hotel – Hotel Booking & Billing Management Tool

- Created intuitive navigation & user-centric design that adapts to mobile & desktop platforms.
- Deployed API instance to the cloud & connected front-end interface for real-time data retrieval & manipulation.
- Focused on accessibility & achieved a 100 score from both Google Lighthouse & the chrome WAVE extension.

#### What's Cooking - Recipe Tracking Application

- Developed app allowing users to view, filter, and choose recipes for cooking and shopping.
- Implemented prototype methods to perform efficient data manipulation.
- Collaborated with a team of developers using Test-Driven Development (TDD) to create a robust testing suite, enhancing code reliability and maintainability.

#### Rock · Paper · Scissors Game

- Developed an interactive Rock · Paper · Scissors game both classic and advanced game modes.
- Designed a sleek and intuitive UI with custom player names, avatars, and a two-player mode, enhancing user engagement and experience.
- Utilized complex CSS animations, async delays, and DOM manipulation to create a seamless and bug-free gameplay experience.

### WORK EXPERIENCE:

---

#### United States Army | Sergeant / Squad Leader | 2014 - 2019

- Supervised a team of five in completing work orders in a metal fabrication shop. Held authority over quality control and taskings. Maintained welding and precision machining equipment, to include repairs and regular services.
- Mentor & manager to a team of 4-8 members with responsibility for their technical and career development.
- Managed & delivered on approximately 100 project deadlines in a demanding, fast-paced environment that required balancing work schedules with extensive military training demands.

### EDUCATION:

---

#### The Turing School of Software & Design · 2024

Front End Software Engineering · 9-month Engineering School

#### Microsoft Software & Systems Academy · 2019

Microsoft Software Associate (MTA) - Software Development Fundamentals · 19-week Course
